

# First steps to powering your professional profile

Put one foot in front of the other and start your journey towards control of the digital you.

First, ten questions to help you conduct your own self assesment.

Second, take time to consider the outcomes you want to achieve.

Third, call or email us to book your initial FREE consultation.

## Where you are at?

Do you:

Always find the information you need when searching the web?

Persevere and troubleshoot when meeting a digital hurdle?

Manage all your accounts and passwords seamlessly?

Use social media?

Subscribe to blogs?

Find your device as useful as you would like it to be?

Feel left behind by the rate of change in technology?

Know what your digital footprint is?

Get the value you seek from your digital devices?

Know what cloud computing is and can describe it in ten words or less?

## What do you want to achieve by increasing your digital competence?

I would like to:

Know I have chosen the right digital tool for the right purpose.

Model sound digital habits for my children.

Create a digital presence because it is a professional necessity.

Evidence my skills.

Transfer my skills into different contexts.

Show my employer additional skills and knowledge.

Use social media effectively.

Understand what cloud computing means for me.

Get more out of my devices.

Feel confident that my digital presence is a true reflection of me.
